INDEX TO VOLUME 5, FOREST SCIENCE, 1959

Art.—article; rev.—review; art. (rev.)—review of article or book by.
Authors are indicated by capitals.

Absorption rates of 2,4,5-T tagged with carbon-14. art. 128
Ambrosia beetle Trypodendron lineatum (Oliv.). The overwintering of the. art. 81
ANDERSON, RALPH L. art. 356
Apical meristem aging and silviculture. rev. 412
Balsam gall midge in Wisconsin. The biology and ecology of the. art. 193
BARNES, ROBERT L. art. 158
BARRACLOUGH, SOLON L. rev. 191
BECK, EDWIN. art. 128
BENJAMIN, DANIEL M. art. 193
Bias due to edge effect in using the Bitterlich method. art. 370
Biology and ecology of the balsam gall midge in Wisconsin. The. art. 193
Bitterlich method. Bias due to edge effect in using the. art. 370
BROADFOOT, W. M. art. 2
Budworm, spruce. Mortality of rootlets in balsam fir defoliated by the. art. 64
Cambial activity in black cherry. The initiation of. art. 70
Ceanothus leucodermis and soil nitrogen in southern California mountains. art. 275
Certain ecological and phylogenetic aspects of the pattern of water conduction in conifers. art. 259
Changes in woodland vegetation and soils after spraying large amounts of waste water. art. 18
CHAPMAN, J. A. art. 81
Cherry, black. The initiation of cambial activity in. art. 70
CHING, KIM K. art. 74, 246
CHING, TE MAY. art. 74
Columbian timber beetle and associated fungi in white oak. The. art. 114
Comparison of the Gunn-Bellani radiation integrator and the Eppley pyrheliometer. A. art. 234
Comprehensive and economical designs for studies of spacing and thinning. art. 237
DASMANN, RAYMOND F. rev. 222
Data for planning woodland opportunities on West Tennessee farms. rev. 191
DAVIS, KENNETH P. rev. 395
Decay in northern hardwoods following artificial inoculation with some common heartrot fungi. Rate of. art. 223
DECKER, JOHN P. art. 154, art. (rev.) 291
Distribution of organic matter and plant nutrients in a plantation of Scots pine. art. 344
Douglas-fir and bigcone Douglas-fir. Hybridization between. art. 246
Douglas-fir, bigcone. Photoperiodic control of bud development in coulter pine and. art. 138
Douglas-fir pollen and effects of gibberellic acid on its germination. Extracting. art. 74
Douglas-fir seed as affected by light, temperature, and gibberellic acid. Germination of. art. 174
Douglas-fir. The secondary phloem of. art. 377
DUMBROFF, ERWIN. art. 128
Dwarfmistletoe infection. Brooming response of black spruce to. art. 356
Dwarfmistletoe seed on ponderosa pine. Natural emplacement of. art. 365
Economics of American forestry. rev. 355
Effect of available soil moisture and the mycorrhizal association of Virginia pine. The. art. 267
Effect of temperature on pollen ger-

mination of pinus and its bearing on controlled pollination. art. 10
Elytroderma deformans. Perennial infection of ponderosa pine by. art. 182
Eppley pyrheliometer. A comparison of the Gunn-Bellani radiation integrator and the. art. 234
ESLYN, WALLACE E. art. 37
EVANS, T. C. art. 49
Experimental conservation. rev. 222
Extracting Douglas-fir pollen and effects of gibberellic acid on its germination. art. 74
FARMER, JR., ROBERT E. art. (rev.) 412
Forest fire: control and use. rev. 395
Forestry theses accepted by colleges and universities in the United States —supplement January 1956—June 1958, including additions for 1900-1955. art. 293
Forest succession. A system for analysis of. art. 154
FOSTER, RALPH W. art. 279
FOWELLS, HARRY A. art. 95
FRENCH, D. W. art. 255
GENTILE, ARTHUR C. art. 389
GERHOLD, H. D. art. 333
Germination of Douglas-fir seed as affected by light, temperature, and gibberellic acid. art. 174
GIESE, RONALD L. art. 193
GOULD, JR., E. M. art. (rev.) 191
GRAHAM, SAMUEL A. art. 28
GRILLOS, STEVE J. art. 377
GRUSCHOW, G. F. art. 49
HACSKAYLO, EDWARD. art. 267
HAGA, TOSHIRO. art. 370
HAIG, I. T. rev. 137
Heartrot fungi. Rate of decay in northern hardwoods following artificial inoculation with some common. art. 223
HEIBERG, S. O. art. 142
HELLMERS, HENRY. art. 138, 275
HENSON, W. R. art. 397
Host bark characteristics and infection by Hypoxylon pruinatum (Klot.) Cke. art. 255
Hybridization between Douglas-fir and bigcone Douglas-fir. art. 246
Hybridization in the white pines. Species. art. 210
Hypoxylon pruinatum (Klot.) Cke. Host bark characteristics and infection by. art. 255
Influence of potassium fertilizer level on red pine planted at various spacings on a potassium-deficient site. art. 142
Influence of the seed coat on germination, water absorption, and oxygen uptake of eastern white pine seed. art. 389
Initiation of cambial activity in black cherry. The. art. 70
Inorganic nutrition of loblolly pine and Virginia pine with special reference to nitrogen and phosphorus. The. art. 95
In vitro culture of pine roots and the use of pinus serotina roots in metabolic studies. art. 158
KAUFERT, F. H. art. 356
KEETCH, JOHN J. art. (rev.) 395
KELLEHER, JOHN M. art. 275
KINGHORN, J. M. art. 81
KOZLOWSKI, THEODORE T. art. 389
KRAUSS, ROBERT W. art. 95
KRUGMAN, STANLEY L. art. 169
Leuco-anthocyanin distribution in the genus pinus. The. art. 169
LEYTON, L. art. 142
LITTLE, SILAS. art. 18
LOEWENSTEIN, H. art. 142
LULL, HOWARD W. art. 18
MADGWICK, H. A. I. art. 344
MAEZAWA, KANJIRO. art. 370
Maple, red. Relation between site indexes of eastern white pine and. art. 279
MARTY, ROBERT J. art. 269
McCOMB, A. L. art. 234
McWILLIAM, J. R. art. 10
Methods of vegetation study. rev. 364
MONK, CARL D. art. 229
Mortality of rootlets in balsam fir

defoliated by the spruce budworm. art. 64
Mycorrhizal association of Virginia pine. The effect of available soil moisture on the. art. 267
Native pinewoods of Scotland. The. rev. 157
Natural emplacement of dwarfmistletoe seed on ponderosa pine. art. 365
NAYLOR, AUBREY W. art. 158
Norway, private forestry in—a case study in small woodland management and policy.
For. Sci. Monog. 1 (a separate)
Oak, white. The columbian timber beetle and associated fungi in. art. 114
Organic matter and plant nutrients in a plantation of Scots pine. Distribution of. art. 344
OSBORN, KATHERINE H. art. 293
OSHIMA, NAGAYOSHI. art. 255
Overwintering of the Ambrosia beetle Trypodendron lineatum (Oliv.). The. art. 81
OVINGTON, J. D. art. 344
PARKER, JOHNSON. art. 56
Perennial infection of ponderosa pine by Elytroderma deformans. art. 182
PHILLIPS, EDWIN ALLEN. rev. 364
Photoperiodic control of bud development in Coulter pine and bigcone Douglas-fir. art. 138
Physiology of trees. The. rev. 291
Pine, Coulter, and bigcone Douglas-fir. Photoperiodic control of bud development in. art. 138
Pine, eastern white, and red maple. Relation between site indexes of. art. 279
Pine, loblolly and Virginia pine with special reference to nitrogen and phosphorus. The inorganic nutrition of. art. 95
Pine, ponderosa. Perennial infection by Elytroderma deformans. art. 182
Pine, ponderosa. Natural emplacement of dwarfmistletoe seed on. art. 365
Pine, ponderosa. Root regeneration of seedlings lifted at different times of the year. art. 322
Pine, red, planted at various spacings on a potassium-deficient site. Influence of potassium fertilizer level on. art. 142
Pine, Scotch, in relation to microclimatic factors. Seasonal discoloration of. art. 333
Pine, Scots. Distribution of organic matter and plant nutrients in a plantation of. art. 344
Pine seed, eastern white. Influence of the seed coat on germination, water absorption, and oxygen uptake of. art. 389
Pine, slash, stands. The relation of cubic-foot volume growth to stand density in young. art. 49
Pine, Virginia. The effect of available soil moisture on the mycorrhizal association of. art. 267
Pine, white. Predicting weevil-caused volume loss in. art. 269
Pines, white. Species hybridization in the. art. 210
Pinus, genus. The leuco-anthocyanin distribution in the. art. 169
Pinus serotina roots in metabolic studies. In vitro culture of pine roots and the use of. art. 158
Predicting weevil-caused volume loss in white pine. art. 269
Private forestry in Norway—a case study in small woodland management and policy.
For. Sci. Monog. 1 (a separate)
Pollen germination of pinus and its bearing on controlled pollination. Effect of temperature on. art. 10
Potassium fertilizer level on red pine planted at various spacings on a potassium-deficient site. Influence of. art. 142
Radiographical determination of decay in living trees by means of the thulium x-ray unit. art. 37
Rate of decay in northern hardwoods following artificial inoculation with some common heartrot fungi. art. 223

39

REDMOND, D. R. art. 64
REINES, M. art. 70
Relation between site indexes of eastern white pine and red maple. art. 279
Relation of cubic-foot volume growth to stand density in young slash pine stands. The. art. 49
REMSON, IRWIN. art. 18
RICHARDSON, S. D. art. 174
Root regeneration of ponderosa pine seedlings lifted at different times of the year. art. 322
ROTH, LEWIS F. art. 182, 365
RUDINSKY, J. A. art. 259
SATTERLUND, DONALD R. art. 28
Sawfly cocoons. Weather, water levels and larch. art. 28
SCHAFFALITZKY DE MUCKADELL, M. rev. 412
SCHUBERT, GILBERT H. art. 322
Seasonal discoloration of Scotch pine in relation to microclimatic factors. art. 333
Seasonal variations in sugars of conifers with some observations on cold resistance. art. 56
Secondary phloem of Douglas-fir. The. art. 377
SHARPE, GRANT W. art. (rev.) 222
SHAW, R. H. art. 234
SILVERBORG, SAVEL B. art. 223
SMALL, JOHN A. art. 229
SMITH, FRANK H. art. 377
SMITH, J. HARRY G. art. 237
Some sampling attributes of the negative binomial distribution with special reference to forest insects. art. 397
Spacing and thinning. Comprehensive and economical designs for studies of. art. 237
Species hybridization in the white pines. art. 210
Spruce, black, to dwarfmistletoe infection. Brooming response of. art. 356
SPURR, STEPHEN H. art. (rev.) 157, 254, 364
Stand density in young slash pine stands. The relation of cubic-foot volume growth to. art. 49
Stem form and volume of Japanese larch in the Netherlands. rev. 254
STEVEN, H. M. rev. 157
STOLTENBERG, C. H. art. (rev.) 355
STONE, EDWARD C. art. 322
Sugars of conifers with some observations on cold resistance. Seasonal variations in. art. 56
Sweetgum blight as related to alluvial soils of the Mississippi River floodplain. art. 2
System for analysis of forest succession. A. art. 154
2,4,5-T tagged with carbon-14. Absorption rates of. art. 128
THIMANN, KENNETH V. rev. 291
Thulium x-ray unit. Radiographical determination of decay in living trees by means of the. art. 37
TOOLE, E. RICHARD art. 2
Tree radii and temperature. Winter changes in. art. 229
Tropical Silviculture. rev. 137
VAN SOEST, JAN. rev. 254
VITÉ, J. P. art. 259
WADSWORTH, FRANK H. art. (rev.) 137
WALKER, LAURENCE C. art. 128
Water conduction in conifers. Certain ecological and phylogenetic aspects of the pattern of. art. 259
WATERS, W. E. art. 397
Weather, water levels, and larch sawfly cocoons. art. 28
WILSON, CHARLES L. art. 114
Winter changes in tree radii and temperature. art. 229
Woodland vegetation and soils after spraying large amounts of waste water. Changes in. art. 18
WORLEY, J. F. art. 267
WORRELL, ALBERT C. rev. 355
WRIGHT, JONATHAN W. art. 210
ZIVNUSKA, JOHN A. For. Sci. Monog.1 (a separate)
